New Mexican Style Sprouted Grain Tortillas

100% Flourless · High Fiber · Complete Protein

Our exclusive sprouting process increases vital nutrients through "enzymatic action." Enzymes, which spring to life during the sprouting process, biochemically break down starch, proteins and carbohydrates found in the original grain.

This tends to promote digestibility and increases vitamins and minerals. Plus our unique baking techniques protect important natural fiber and bran. You can see, taste and smell *THE LIVE GRAIN DIFFERENCE!*[™] of Food For Life Tortillas.

*These unique tortillas are inspired by the Holy Scriptures verse:
"Take also unto thee wheat, and barley, and beans, and lentils, and millet,
and spelt, and put them in one vessel, and make bread of it..." Ezekiel 4:9*
